

MRAP Continues With Clockwork's Advanced Demand Forecasting Technology

Austin, TX

The Joint Mine Resistant Ambush Protected Vehicle Program (JMVP) has renewed its contract with Clockwork Solutions to provide the world's most advanced logistics predictive modeling and simulation services.

Clockwork has already provided valuable acquisition and sustainment analysis for parts planning and engineering modification proposals for the multiple variants of the MRAP family of vehicles. We look forward to continuing our logistical consultancy services to the JMVP Office to help support our troops with these life-saving vehicles.

About Clockwork Solutions (www.clockwork-solutions.com)

Clockwork Solutions develops and provides advanced availability and life cycle performance modeling and simulation technologies and conducts modeling support and consulting services. Clockwork is proud of the work it is doing across the defense services to improve supportability of systems through performance based modeling and forecasting.

Clockwork Solutions' proprietary modeling technology, SPAR™, uses unique Monte Carlo algorithms to build comprehensive, reliability-based predictive models of complex assets and their operational and logistical environments, such as a fleet of aircrafts, missile systems, a power plant and its distribution system, a group of chemical plants, etc.

Clockwork Solutions' customers include the US Army, the US Marine Corps, JPO MRAP, Lockheed Martin, Raytheon, EADS Astrium, the Israeli Defense Forces, GE Aircraft Engines, Chevron, ConocoPhillips, and many others. Clockwork Solutions, Inc. is headquartered in Austin, TX.
