## Clockwork Solutions Presents at International Applied Reliability Symposium

*Austin, TX*

Dr. Peter Figliozzi has been selected as one of the 39 presenters at the 2010 International Applied Reliability Symposium. Reliability practitioners from all over the world gather annually to discuss how to meet real-world challenges. The symposium will be held June 15 - 17, 2010 at the Grand Sierra Resort in Reno, Nevada.

Dr. Figliozzi's results-oriented presentation is titled "Extended Life- Cycle Management of an Aging Platform through Simulation and Predictive Analysis." Some items discussed will be:

- \*How the use of simulation software adds value to military logistics decision-making
- \*Overview of predictive modeling using Total Life Cycle Management Assessment Tool (TLCM-AT™), one of Clockwork Solutions' tools
- \*Reduction of costs and increase of vehicle readiness achieved within an environment of constant change
- \*Three completed studies for the US Marine Corps Light Armored Vehicle (LAV) fleet, with examples of recommendations for fleet readiness, sparing efficiencies, and cost effective purchase decisions

### **About Clockwork Solutions** ([www.clockwork-solutions.com](http://www.clockwork-solutions.com))

Clockwork Solutions develops and provides advanced availability and life cycle performance modeling and simulation technologies and conducts modeling support and consulting services. Clockwork is proud of the work it is doing across the defense services to improve supportability of systems through performance based modeling and forecasting.

Clockwork Solutions' proprietary modeling technology, SPAR™, uses unique fleet/system discrete event simulations to build comprehensive, reliability-based predictive models of complex assets and their operational and logistical environments, such as a fleet of aircrafts, missile systems, a power plant and its distribution system, a group of chemical plants, etc.

Clockwork Solutions' customers include the US Army, the US Marine Corps, US Navy, Lockheed Martin, Raytheon, EADS Astrium, the Israeli Defense Forces, GE Aircraft Engines, Sikorsky Aircraft, Chevron, ConocoPhillips, and many others. Clockwork Solutions, Inc. is headquartered in Austin, TX, with satellite offices in Huntsville, AL and Stafford, VA.
