

Clockwork Group Announces That Founder and Chief Scientist, Professor Arie Dubi, Will Be Honored with Mirce Akademy's Grand Fellow Award

Austin, TX - November 8, 2001

In conjunction with The International Society of Logistics, the Product Assurance and Reliability Centre, and the Distribution Business and Management Association, Mirce Akademy hosts its 11th International Symposium in Exeter, UK December 4-6, 2001. The program includes sessions on asset management, reliability, opportunistic repair and other interesting subjects. In addition, the Symposium hosts an exhibition of some of the most important players in these industries. Clockwork Group invites the public to its booth during the Symposium.

In addition to receiving his award, Professor Dubi will present the Mirce Akademy Annual Lecture, Hybrid Monte Carlo-Analytical Methods for Resources Optimisation, at 19:00 on December 4. Please join us.
