

NEW BOOK RELEASED

“Predictive Modeling and Simulation for Maximizing System Performance”

Austin, TX

Professor A. Dubi has released a new book which provides an easy to follow, exercise focused manual to aid students in the systems engineering modeling process where reliability, availability, maintenance, spare parts, and other issues related to systems engineering are fundamental components. In this book you will learn how modeling techniques can be applied to many engineering problems within industry. Professor Dubi has created a practical book to help engineers support their engineering decisions with quantifiable answers.

- Learn how to apply real life phenomena like aging to your decisions on equipment repair or replacement.
- Learn methods for calculating the risks associated with your design decisions.
- Learn how to optimize spare parts, maintenance and logistic processes.

Accompanying software is included to work through practical problems.

“Modeling is the way in which we transfer REALITY into a mathematical model.”
-Professor Dubi

About Clockwork Solutions

Clockwork Solutions develops and markets advanced performance based modeling and simulation products and provides modeling support and consulting services. Clockwork is proud of the work it is doing across the defense services to improve supportability of systems through performance based modeling and forecasting. Clockwork Solutions' proprietary modeling technology, SPAR™, uses unique Monte Carlo algorithms to build comprehensive, reliability-based predictive models of complex assets and their operational and logistical environments, such as a fleet of aircrafts, missile systems, a power plant and its distribution system, a group of chemical plants, etc. Clockwork Solutions' customers include the US Army, Lockheed Martin, Raytheon, EADS Astrium, the Israeli Defense Forces, GE, Chevron, Conoco Philips, and many others. Clockwork Solutions, Inc. is headquartered in Austin, TX, with an R&D center and International operations headquarters in Israel. Clockwork Solutions is owned by the Formula Group (NASDAQ: FORTY).
