

Clockwork Solutions Takes the Lead in Performance Based Logistics Tutorials

Austin, TX.

Implementing and understanding how Performance Based Logistics fits into your organization can be daunting. Industry leaders have the complicated task of asking difficult questions and obtaining effective concise answers that can then be explained to all aspects of their internal and external customers. Clockwork Solutions provides comprehensive modeling and data analysis training in 3 and 5 day classes. The [courses](#) include:

- Introduction of SPAR™ methodology and its underlying mathematics
- ATLAST Model Development and User Curriculum
- Introduction of analysis and optimizing performance and logistic resources to support capital-intensive systems
- Introduction of the notions of redundancy, spare parts optimization, and cost in total life cycle performance analysis

*Chief Instructor John Fealy leads a defense
OEM Client Course
May 2007*

Upon completion of the course, participants will be able to create ATLAST™ and / or VisualSPAR™ models of systems that will predict and optimize their life cycle performance and cost-considering factors. Clockwork Solutions courses are given by certified instructors and are custom tailored to your company's specific needs.

*Power systems OEM course
participants listen attentively to Dr.
Naaman Gurvitz as he explains
failure distribution components of
model development. –May 2007*

About Clockwork Solutions

Clockwork Solutions develops and markets advanced performance based modeling and simulation products and provides modeling support and consulting services. Clockwork is proud of the work it is doing across the defense services to improve supportability of systems through performance based modeling and forecasting. Clockwork Solutions' proprietary modeling technology, SPAR™, uses unique Monte Carlo algorithms to build comprehensive, reliability-based predictive models of complex assets and their operational and logistical environments, such as a fleet of aircrafts, missile systems, a power plant and its distribution system, a group of chemical plants, etc. Clockwork Solutions' customers include the US Army, the US Marine Corps, Lockheed Martin, Raytheon, Sikorsky Aircraft, EADS Astrium, the Israeli Defense Forces, GE, Chevron, ConocoPhillips, and many others. Clockwork Solutions, Inc. is headquartered in Austin, TX, with an R&D center and International operations headquarters in Israel. Clockwork Solutions is owned by Formula Vision (TASE: FVT).
