

2006 AHS Forum 62 Proves to be Exciting and Rewarding

*Phoenix,
Arizona, USA*

The 2006 AHS Annual Forum held an impressive group of Industry Leaders in the rotary wing aviation field. Clockwork Solutions demonstrated technology and solutions in support of Performance Based Logistics (PBL) life cycle modeling in support of PBL proposal development and PBL contract execution. Many industry participants showed interest in Clockwork Solutions proprietary modeling technology, products and services which can enable them to track and manage risks associated with achieving and maintaining required system performance throughout the life of PBL contracts.

[About SPAR™](#)

[About Clockwork Solutions](#)

Clockwork Solutions develops and markets advanced performance based modeling and simulation products and provides modeling support and consulting services. Clockwork is proud of the work it is doing across the defense services to improve supportability of systems through performance based modeling and forecasting. Clockwork Solutions' proprietary modeling technology, SPAR™, uses unique Monte Carlo algorithms to build comprehensive, reliability-based predictive models of complex assets and their operational and logistical environments, such as a fleet of aircrafts, missile systems, a power plant and its distribution system, a group of chemical plants, etc. Clockwork Solutions' customers include the US Army, Lockheed Martin, Raytheon, EADS Astrium, the Israeli Defense Forces, GE, Chevron, Conoco Philips, and many others. Clockwork Solutions, Inc. is headquartered in Austin, TX, with an R&D center and International operation headquarters in Israel. Clockwork Solutions is owned by the Formula Group (NASDAQ: FORTY).
