

## **Israel Aircraft Industries Joined the SuperSPAR Program**

*Austin, TX*

Israel Aircraft Industries (the Product Assurance Department, Engineering Division, Commercial Aircraft Group) recently joined the SuperSPAR Program.

A multi-year research and development program, initiated by the Israeli Ministry of Defense (IMOD), the Israeli Defense Forces (IDF) and Clockwork Solutions in 2002, SuperSPAR™ Program objective has been the development and deployment of advanced modeling technology and products that will effectively handle the highly complex requirements of the future battlefield weapon systems, including capabilities to model “System-of-Systems”, with an unlimited number of indenture levels and operation scenarios, as well the most complex multi-level logistic environments.

Clockwork Solutions successfully completed phase 4 of the SuperSPAR™ Program and released the modeling platform Annabelle™ v3.0 and the multi-field multi-echelon Optimizer™ v3.0 to the Program’s members. The new deliverables’ functionality includes comprehensive modeling of resources, SRU and LRU optimization and advanced User Interface / GUI.

For additional information about the SuperSPAR™ Program, the functionality of its current and planned deliverables and the possibilities of joining the Program, please contact us at [info-SuperSPAR@clockwork-solutions.com](mailto:info-SuperSPAR@clockwork-solutions.com)

### **About Clockwork Solutions**

Clockwork Solutions develops and markets advanced performance based modeling and simulation products and provides modeling support and consulting services. Clockwork is proud of the work it is doing across the defense services to improve supportability of systems through performance based modeling and forecasting. Clockwork Solutions’ proprietary modeling technology, SPAR™, uses unique Monte Carlo algorithms to build comprehensive, reliability-based predictive models of complex assets and their operational and logistical environments, such as a fleet of aircrafts, missile systems, a power plant and its distribution system, a group of chemical plants, etc. Clockwork Solutions’ customers include the US Army, Lockheed Martin, Raytheon, EADS Astrium, the Israeli Defense Forces, GE, Chevron, Conoco Philips, and many others. Clockwork Solutions, Inc. is headquartered in Austin, TX, with an R&D center and International operation headquarters in Israel. Clockwork Solutions is owned by the Formula Group (NASDAQ: FORTY).
